

# Village of Oregon Cross Connection Survey (Commercial/Industrial/Public Authority Customers)

This survey is being performed in accordance with WI DNR Code NR 810.15, Department of Safety and Professional Services (DPS) Code 382.41, and the Village of Oregon Municipal Code to ensure safe drinking water.

Compliant?    Yes (no further action required)                       No (see table below for corrective action)

Customer/Account ID \_\_\_\_\_ Survey Date \_\_\_\_\_

Property Address \_\_\_\_\_

Owner Name \_\_\_\_\_ Tenant Name \_\_\_\_\_

Owner Phone \_\_\_\_\_ Tenant Phone \_\_\_\_\_

If property is commercial: what is the risk level for cross-connection contamination?    High    Low

Fixture Type	Quantity	Approved?	Location/Description	Device

*Backflow prevention devices, assemblies and methods must conform to the following National Standards. State plumbing code and consultant information can be found online at <https://dps.wi.gov/Pages/Programs/Plumbing/Default.aspx>.*

**NOTICE: Cross connections identified during the survey must be corrected within 30 days of the initial survey visit. When corrective action is completed, please call Sue Poole at 608-835-6284 to arrange for a follow-up compliance verification survey. Removal of installed items or failure to make required corrections and to schedule an appointment for re-inspection may result in disconnection of your water service.**
